Code, Coffee & Me ☕💻
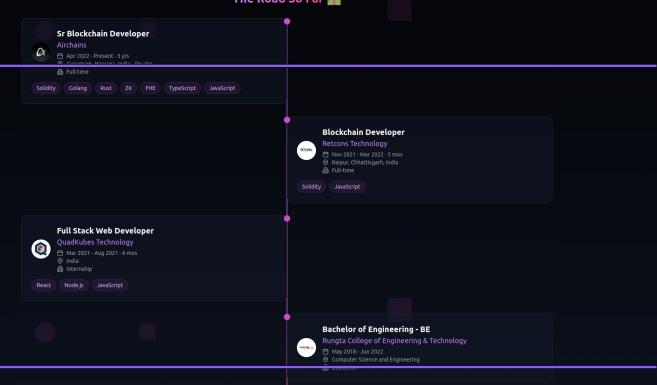

🚀 **Hey, I'm Aakash Singh Rajput!**

A **Blockchain Wizard** 🧙 and **Full Stack Alchemist** 💻, turning **lines of code** into **decentralized magic**! Whether it's **smart contracts**, **ZK proofs**, or **FHE sorcery**, I love pushing Web3 to the next level.

I spend my days **hacking away in Solidity, Go, and Rust**—and my nights wondering why gas fees still exist. 😅 When I'm not coding, I'm probably deep-diving into **DeFi rabbit holes**, contributing to **open-source chaos**, or evangelizing blockchain to anyone who'll listen (or can't escape).

Let's **connect, build, and break things**—because the **future is decentralized, and I refuse to be left behind!** 🧩⚡🔥
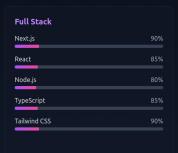

The Road So Far 🗺️

Sr Blockchain Developer
Airchains

📅 Apr 2022 - Present · 3 yrs
📍 Gurugram, Haryana, India · On-site
🏢 Full-time

Solidity   Golang   Rust   ZK   FHE   TypeScript   JavaScript

Blockchain Developer
Retcons Technology

📅 Nov 2021 - Mar 2022 · 5 mos
📍 Raipur, Chhattisgarh, India
🏢 Full-time

Solidity   JavaScript

Full Stack Web Developer
QuadKubes Technology

📅 Mar 2021 - Aug 2021 · 6 mos
📍 India
🏢 Internship

React   Node.js   JavaScript

Bachelor of Engineering - BE
Rungta College of Engineering & Technology

📅 May 2018 - Jun 2022
📍 Computer Science and Engineering
🏢 Education

My Expertise 🛠️

Blockchain Development
Custom blockchain solutions, smart contracts, and decentralized applications with a focus on security and efficiency.

ZK & FHE Implementation
Zero-knowledge proofs and fully homomorphic encryption solutions for privacy-preserving applications.

Full Stack Development
End-to-end web application development with modern frameworks and best practices.

Smart Contract Auditing
Comprehensive security audits for smart contracts to identify vulnerabilities and ensure robust implementation.

Web3 Integration
Seamless integration of Web3 technologies into existing applications and platforms.

Technical Consultation
Expert advice on blockchain architecture, technology stack selection, and implementation strategies.

What I've Built 🏗️

Serverless Web3 Blog
Decentralized blogging platform with permanent storage on Arweave and crypto micropayments.

Next.js Firebase Arweave Web3

Cross-Chain Bridge
Secure bridge for asset transfers between different blockchain networks.

Cross-Chain Interoperability DeFi

Decentralized Identity Solution
Self-sovereign identity solution using blockchain technology.

DID Identity Blockchain

Solidity Code Generator
Tool for rapid development and testing of secure smart contracts.

Solidity Smart Contracts Development
